

295W high-efficiency perc bifacial module

Overview

What is PERC bifacial technology?

PERC bifacial technology is a new way to achieve high-power and low- cost module. NSP BiFi double-glass module has high power output and better reliability. Champion module power 298W with 60 cells and equivalent power 337W. NSP BiFi module enables higher system IRR than conventional monofacial multi c-Si, mono c-Si, and PERC modules.

What is bifacial PV & PERC?

BiFi module has various applications in solar farm, agriculture, flat rooftop, BIPV, carport, landmark, snow region, and desert region. Cost reduction is the key to expand bifacial PV market. PERC bifacial technology is a new way to achieve high-power and low-.

What is NSP BiFi 295W module?

NSP BiFi 295W module enables higher system IRR than conventional monofacial 265W multi c-Si, 280W mono c-Si, and 295W PERC modules. Higher albedo enables higher IRR in BiFi system. BiFi module has various applications in solar farm, agriculture, flat rooftop, BIPV, carport, landmark, snow region, and desert region.

What is a rec Twinpeak 2 series solar module?

REC TwinPeak 2 Series solar modules feature an innovative design using 120 laser cut polysilicon HC solar cells. This results in higher panel efficiency that, when combined with the other optimized components of the module, can provide over 12 watts more power output per panel than traditional polycrystalline technologies.

How much does a bifacial LCOE cost?

Bifacial Avg. case +6% BG E Low case +4% BG E Bifacial PERC \$1.10/W
Monofacial reference \$1.05/W NREL | 42 \$25 \$30 \$35 \$40 \$45 1,200 1,450

1,700 1,950 2,200 2,450 LCOE (2019 USD/MWh) Site kWh/kW annual
(monofacial) POST-TARIFF Bifacial vs Monofacial LCOE at various US sites 6%
Nominal Discount Rate.

How bifacial PV is expanding market share?

High cost is main issue for expanding market share of bifacial PV.
nPERT/nPERL/SHJ are using high-cost n-wafers and double-sided Ag paste.
PERC BiFi. PERC bifacial is using existing process tools and same materials as
pPERC, enabling cost reduction for bifacial PV. PERC market share is
forecasted to be 25% in 2020.

295W high-efficiency perc bifacial module

[High-Efficiency 295w jinko solar panel module](#)

Go for efficient and robust 295w jinko solar panel module at Alibaba for both residential and commercial uses. Buy amazing 295w jinko solar panel module having mono, poly and ...
