

545W double-glass 30-frame module

Overview

What is a 545 W JA Solar panel?

This 545 W JA Solar solar panel also comes with a generous 12-year product warranty. JA-JAM72-D30-545MB design makes it ideal for residential and commercial rooftops. Strong 1.38" frame made from anodized aluminum increases durability and strength. The model can support a heavy snow load up to 5400 Pa.

How many Watts Does a jam72d30 545 MB solar module produce?

Coeff. of P (max) The JA Solar JAM72D30-545/MB (BIF, DG) solar module with a rated output of 545 watts is the ideal choice to meet all your solar energy requirements. The bifacial design uses both sides of the module to generate energy, maximizing energy output especially on reflective surfaces like light-colored ground or snow.

What is jam 72d30 MB 525-550w half cell solar module?

JAM 72D30 MB 525-550W Half cell DG Silver frame Solar module features Higher power output, more reliable, more stable geneartion, less shading effect and lower temperature coefficients.

Which bifacial module is better ja-jam72-d30-545mb?

This grants JA-JAM72-D30-545MB lower resistive losses and better shade tolerance. Not surprisingly, the efficiency of this module is quite high – 21.1%. And while conventional panels use only one side to absorb photons, bifacial modules employ both sides at the same time. Thanks to the technology, this model can be up to 30% more efficient.

Why should you choose double glass backsheet modules?

The double glass construction offers superior durability and weatherproofing compared to traditional backsheet modules, with a robust 30-year output warranty and exceptionally low 0.45% annual degradation rate.
