

5g battery cabinet

Overview

What are 5G outdoor cabinets?

5G outdoor cabinets, also referred to as 5G outdoor cabinets or 5G outdoor enclosures, are boxes designed to house and protect the electrical equipment to support 5G-LTE technology. Made of metals, plastics or a combination of the two material types, 5G outdoor equipment enclosures serve the following primary purposes.

What is a 5G enclosure?

Equipment protection: An enclosure's primary purpose is to protect 5G cables and equipment from damage caused by environmental and physical conditions. The cabinet is mechanically robust and sealed, preventing costly damage from weather conditions, impacts and other factors.

How does EnerSys® meet the challenge of adding 5G capabilities?

EnerSys® meets the challenge of adding 5G capabilities to existing sites by providing our customers with the right amount of full-featured power and energy storage in the least amount of space. Adding 5G radios to existing macro cell sites requires different types of power and energy storage solutions.
