

Argentina high-altitude photovoltaic panel installation manufacturer

Overview

How many solar panel installers are there in Argentina?

Argentine solar panel installers – showing companies in Argentina that undertake solar panel installation, including rooftop and standalone solar systems. 92 installers based in Argentina are listed below. Ing. Alejandro Alvarez.

What is the highest-altitude solar project in South America?

The Cauchari solar project in Argentina's northernmost province Jujuy is one of the biggest photovoltaic (PV) solar power projects in South America. Located at an elevation of more than 4km above the sea level, it is also the world's highest-altitude solar power project. Construction on the Cauchari solar project was started in October 2017.

What should you consider when exploring the solar energy industry in Argentina?

When exploring the solar energy industry in Argentina, several key considerations should be taken into account. The country benefits from abundant solar resources, particularly in regions like the northwest, which positions it well for solar power generation.

Does Argentina need a new photovoltaic plant in 2021?

Argentina continues in its efforts to increase the share of renewable energies in its energy mix, which is still heavily dependent on fossil fuels. At the end of 2021, the developer Neoen will commission a new photovoltaic plant in the province of Salta, Altiplano Solar, the second largest in the country.
