

# **Austria Photovoltaic Power Station Energy Storage Project**

#### **Overview**

How much does a photovoltaic battery storage system cost in Austria?

The total inventory of photovoltaic battery storage systems in Austria therefore rose to 11,908 storage systems with a cumulative usable storage capacity of approx. 121 MWh. For 2020, a price of around € 914 per kWh of usable storage capacity excl. VAT was charged for PV storage systems installed as turnkey solutions.

Does Austria have a market for energy storage technologies?

A study 1 carried out by the University of Applied Sciences Technikum Wien, AEE INTEC, BEST and ENFOS presents the market development of energy storage technologies in Austria for the first time.

How big is Austria's hydraulic storage power plant capacity?

In 2020, Austria had a hystorically grown inventory of hydraulic storage power plants with a gross maximum capacity of 8.8 GW and gross electricity generation of 14.7 TWh. This storage capacity has already played a central role in the past in optimising power plant deployment and grid regulation.

How many tank water storage systems are there in Austria?

A total of 840 tank water storage systems in primary and secondary networks with a total storage volume of 191,150 m³ were surveyed in Austria. The five largest individual tank water storage systems have volumes of 50,000 m³ (Theiss), 34,500 m³ (Linz), 30,000 m³ (Salzburg), 20,000 m³ (Timelkam) and twice 5,500 m³ (Vienna).

How much money will the government give to solar & electricity storage projects?

As part of the plan, the government will be providing an additional funding of up to 20% for solar and electricity storage projects if they use European components. The bonus will come into effect with the second funding call on

Does Europe have a technological edge in inverters & battery storage?

The ministry highlighted Europe's technological edge in inverters—critical for grid integration of PV systems—and battery storage, noting these sectors "align with Austria's strategic priorities to strengthen domestic supply chains and reduce reliance on third-country imports."
