

# BESS price of rooftop photovoltaic panels in the capital

### **Overview**

How much would a rooftop solar system cost without Bess?

Without BESS, the same household could install 10 kW of rooftop solar, which would cost \$28,700 and save \$1,567 per year. PGE and the state of Oregon both offer incentives for rooftop solar and battery energy storage. With the utility, state, and federal incentives, the combined solar and BESS system could be paid back within 11 years.

Are rooftop solar panels or battery energy storage systems worth the cost?

Pacific Northwest National Laboratory (PNNL) researchers are here to help. Homeowners must navigate a quagmire of complicated policies to determine whether the energy savings from rooftop solar panels or battery energy storage systems (BESS) are worth the high upfront cost.

How much do rooftop solar panels cost?

The cost of rooftop solar panels can vary widely depending on the size of the solar installation, the type of panels used, and the installation region. Generally speaking, 5kW rooftop solar panel installers can cost anywhere from \$10,000 to \$20,000. How to choose the best Rooftop Solar Panels?

.

Is there a guide to rooftop solar & Bess?

To help homeowners tackle this tangle of information, PNNL researchers Jessica Kerby and Bethel Tarekegne published an open-access guide to rooftop solar and BESS in Renewable Energy Focus.

How much does a rooftop solar system cost in Washington?

A 7.5 kW rooftop solar system plus a 13.5 kWh BESS would cost \$46,322 on average in Washington to install without incentives. The state's largest utility, Puget Sound Energy (PSE), offers a TOU rate option, meaning prices are

higher in the evenings and lower overnight, in the early morning, and on weekends.

Why are rooftop solar panels more affordable?

For homeowners, these global cost trends translate into more affordable rooftop solar installations. As utility-scale solar prices fall, residential systems also benefit from cheaper panels, lower installation costs, and more competitive financing.
