

Belgian energy storage project electricity price subsidies

Overview

Subsidies: Direct subsidies or grants may be available through regional or national programs designed to support renewable energy integration. Feed-in tariffs (if applicable): Although not always the case in merchant markets, specific feed-in tariffs for energy storage might exist. What funding is available for R&I projects in Belgium?

Belgium: Energy Transition Fund. Support for R&I projects for energy. In this context, several publicly funded R&I projects which also include storage, are being performed by Belgian research centres. The funding for energy related R&I projects in 2022 amounts to 25 million €.

How will I4b benefit Belgian households?

Commenting on the project, Andre Autrand, CEO of I4B said: "It addresses fundamental challenges related to the security of the electricity supply, balancing the grid, renewable energy development and decarbonization – all of which will benefit Belgian households as well as the industry and economy in general."

Will state aid be available for large-scale electricity storage systems?

In autumn 2024 two draft regulations were published regarding state aid for large-scale electricity storage systems (BESS), one from the Modernisation Fund ("MF ") 1 - and the second under the National Recovery and Resilience Plan ("RRP ") 2.
