

Bhutan s new energy storage power station will be put into use

Overview

How will Bhutan achieve its energy goals?

Bhutan plans to achieve this target through diversification in its energy portfolio beyond traditional hydropower, which would include solar and geothermal energy. This will extend to diversifying project structuring and financing through such strategic partnerships.

How many people have access to electricity in Bhutan?

In Bhutan, approximately 100% of urban and 98% of rural households had access to electricity in 2017. The abundance of hydroelectric power generation has not only been an asset to the country's development but also a pathway for its low-carbon growth.

Why does Bhutan need hydropower?

More importantly, Bhutan sees its hydropower as critical in ensuring round-theclock availability of power with India's huge investments in renewables such as solar and wind and the plans to further accelerate investments in these renewables over the next two decades.

Why is Tata Power partnering with Bhutan?

Mr. Dasho Chhewang Rinzin, MD, DGPC said, "This strategic partnership with Tata Power is in keeping with Bhutan's aspirations to maximize benefits to the people of Bhutan through fast-tracking the harnessing of its huge renewable energy resources for its economic development and long-term energy security.

What is Bhutan's energy vision for 2040?

This is in keeping with Bhutan's vision for its energy sector which is to take its overall generation capacity to 25,000 MW by 2040 for its energy security and regional energy integration.

How much hydro capacity does DGPC have in Bhutan?

DGPC has a portfolio of 2453 MW of Hydro capacity in Bhutan, a large percentage of which is being exported to India, especially during the monsoon months. DGPC is envisioned to achieve 5,500 MW Hydro capacity within the next 5 years timeline including investments & development of Small Hydro and solar Projects.

Bhutan s new energy storage power station will be put into use

India's Reliance Group in agreement to develop hydropower in Bhutan

The partnership between Reliance Group and Druk Holding will focus on green energy generation, specifically solar and hydropower initiatives, while also exploring new ...
