

Composition of liquid-cooled container energy storage system

Overview

The 5MWh liquid-cooling energy storage system comprises cells, BMS, a 20'GP container, thermal management system, firefighting system, bus unit, power distribution unit, wiring harness, and more.

Composition of liquid-cooled container energy storage system

Energy Storage System

CATL's energy storage systems provide smart load management for power transmission and distribution, and modulate frequency and peak in time according to power grid loads. The ...
