

Container Electric 3 125kw inverter

Overview

What is a parallelable 125kW energy storage inverter?

This parallelable 125kW energy storage inverter is transformer-less, air-cooled, compact, and optimized for behind the meter energy storage applications. Featuring a highly efficient three-level topology, the MPS-125 is easily integrated into customer supplied battery storage systems.

What is a CPS 100/125kw inverter?

High efficiency at 99.1% peak and 98.5% CEC, wide operating voltages, broad temperature ranges and a NEMA Type 4X enclosure enable this inverter platform to operate at high performance across many applications. The CPS 100/125kW inverters ship with either the standard or "centralized" wire-box.

What is a high voltage inverter?

High voltage, three-phase energy storage for commercial applications. The inverter series, which boasts a maximum charge/discharge current of 100A+100A across two independently controlled battery ports, has 10 integrated MPPTs with a string current capacity of up to 20A – ensuring unmatched power delivery.

What is a peak 3 inverter?

PEAK 3 stands for pure power. With its compact design, the inverter offers maximum power density at minimum weight. This results in less expensive transportation and simplified installation. In combination with the project-specific DC Combiner Boxes, the PV array can be oversized up to 200 %.

Can multiple mps-125 energy storage inverters be paralleled?

Multiple MPS-125 energy storage inverters can be paralleled together to scale to meet the needs of any behind-the-meter energy storage installation. With all the functional capabilities of the grid-scale CPS inverter family, the MPS-125 supports frequency, voltage, and VAR support applications.

What is the power range of a Samsung inverter?

The power range includes 75K, 80K, 100K, and 125K. The inverter series, which boasts a maximum charge/discharge current of 100A+100A across two independently controlled battery ports, has 10 integrated MPPTs with a string current capacity of up to 20A – ensuring unmatched power delivery.

Container Electric 3 125kw inverter

Commercial 125kW

The 100 & 125kW (111 & 132kVA) medium power CPS three phase string inverters are designed for ground mount and carport applications at 1500Vdc. The units are high performance, ...
