

Container outdoor power supply scale

Overview

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

How many power supplies can be mounted in a 40ft container?

Power supplies <300kW can be mounted in only a single 40ft container, while greater powers can be achieved in multiple containers and connected upon delivery. Depending upon specifications, containerized power supplies may be stacked, or located side-by-side. Setup and testing or shut-down and packing can be achieved within a matter of days.

What types of power supplies can be provided?

A wide range of high voltage, CW DC, pulsed or modulated waveform outputs can be provided. The entire system is made to be entirely weatherproof. Power supplies <300kW can be mounted in only a single 40ft container, while greater powers can be achieved in multiple containers and connected upon delivery.

How long does it take to set up a container scale?

So long as the container is lifted clear of the ground, the scales will weigh to accuracy levels of up to +/- 0.2%. For grounded containers, it takes one person just 3 - 4 minutes to set up, weigh and pack the system away. 4 x certified wireless container scales. 4 x custom bottle jacks. 4 x steel ground plates. 1 x master indicator. 1 x trolley.

What is a bison container scale?

For better inventory control, measure the volume and value of gas in ISO or cryogenic tanks with accuracy, frequency and less cost. Bison Container Scales are wireless, portable scales for weighing shipping containers accurately in your loading zone.

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.

Why should you choose AMPEGON for a self-contained power supply system?

To address these challenges, Ampegon has developed solutions to provide flexible self-contained power supply systems. Whether there is insufficient space inside existing buildings for a new power supply, no building exists, or there's a need for a system to be continuously mobile, Ampegon has experience providing such solutions.
