

Customized price of prefabricated energy storage system cabin

Overview

Are CABN prefabricated homes code compliant?

CABN has worked to create a line of prefabricated homes that fit within many of the permitting requirements found within Canada and the U.S. For example, our smallest model, HUTT, is available for preassembled delivery and fits within the regulations of many jurisdictions. All models are code compliant across North America.

What is prefab profiles?

Welcome to Prefab Profiles, an ongoing series of interviews with people transforming how we build houses. From prefab tiny houses and modular cabin kits to entire homes ready to ship, their projects represent some of the best ideas in the industry. Do you know a prefab brand that should be on our radar?

Get in touch!.

How much does a CABN home cost?

CABN offers four separate models that range from the one-bedroom MOR.II (540 sq ft., starting from \$219,000) to the four-bedroom GES.TALT (1,850 sq ft., starting from \$549,000).
