

Durable solar temperature control system

ESS

40.96kWh

61.44kWh

Overview

The SPP iSolar 2 is a solar controller for solar thermal systems. The iSolar 2 is a standard differential controller used to turn a solar thermal on and off via pump controls. This solar controller can be used to mo.

Durable solar temperature control system

[Solar Cooling: Eco-Friendly Temperature Control](#)

Discover how solar cooling systems utilize the power of solar energy to provide eco-friendly temperature control for residential and ...

Efficient Higher Revenue

- Max. Efficiency 97.2%
- Max. PV Input Voltage 1000V
- 150% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules

Intelligent Simple O&M

- IP65 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

Flexible Abundant Configuration

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. Current Inverter Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation

Thermostatic Temperature Control Valve Hot Cold Water Shower ...

Highlights A practical tool designed for mixing hot and cold water and keep the water temperature at a certain range. Multifunctional thermostatic mixing valve, suitable for solar heating system ...
