

Energy Storage Cabinet Firewall Construction Plan

Overview

What is the battery energy storage system guidebook?

A public benefit corporation, NYSERDA has been advancing energy solutions and working to protect the environment since 1975. The Battery Energy Storage System Guidebook contains information, tools, and step-by-step instructions to support local governments managing battery energy storage system development in their communities.

What is the energy storage guidebook?

The Guidebook provides local officials with in-depth details about the permitting and inspection process to ensure efficiency, transparency, and safety in their communities. You can download the full Energy Storage Guidebook [PDF] or access individual chapters below.

What is a battery energy storage system?

Battery energy storage systems (BESS) stabilize the electrical grid, ensuring a steady flow of power to homes and businesses regardless of fluctuations from varied energy sources or other disruptions. However, fires at some BESS installations have caused concern in communities considering BESS as a method to support their grids.

What happened at Gateway energy storage facility?

On May 15, 2024, Gateway Energy Storage Facility in San Diego, California, experienced a BESS fire with continued flare-ups for seven days following the fire. The facility held about 15,000 nickel manganese cobalt lithium-ion batteries.

Where can I find information about energy storage regulations in New York City?

Updates and resources can be found on the Working Group's webpage. You can download NYSERDA's New York City [PDF] factsheet to learn more about

energy storage regulations in New York City. The Trainings for Local Governments page offers additional resources including recordings and materials from NYSERDA's battery energy storage system trainings.

What is a battery energy storage inspection checklist?

The Inspection Checklist is intended to be utilized as a guideline for field inspections of residential and small commercial battery energy storage systems. It can be used directly by local code enforcement officers or provided to a third-party inspection agency, where applicable.
