

Energy Storage Project Launch Meeting

Overview

What is the energy storage Grand Challenge (ESGC) 2024?

The DOE's 2024 SRM builds on the Energy Storage Grand Challenge (ESGC) 2020 roadmap, outlining actions for what the SRM calls a strategic, beneficial and timely storage deployment. The SRM cites the underlying motivation for investment in energy storage as ensuring "that the American people will have the resources needed, when needed." "1.

Why should we invest in energy storage?

The SRM cites the underlying motivation for investment in energy storage as ensuring "that the American people will have the resources needed, when needed." "1. To facilitate safe, beneficial, and timely deployment of energy storage technologies and accelerate the development of new technologies that address current and emerging consumer needs.

Will the DOE inform its energy storage SRM through a notice of Availability (NOA)?

The DOE is asking for comment from stakeholders to inform its energy storage SRM through a formal Notice of Availability (NOA). The Energy Storage Summit Central Eastern Europe is set to return in September 2025 for its third edition, focusing on regional markets and the unique opportunities they present.
