

## **Equipment for energy storage**batteries

#### **Overview**

Battery Energy Storage Systems (BESS) are devices that store energy in batteries for later use. They are designed to balance supply and demand, provide backup power, and enhance the efficiency and reliability of the electricity grid.

#### **Equipment for energy storage batteries**

#### **Battery Energy Storage Systems**

High-Rise Multifamily buildings and some nonresidential building categories are prescriptively required to have a battery energy storage system. Performance compliance credit is also ...
