

Estonia Wind-Solar Hybrid Power Generation System Plant

Overview

Enefit Green is building a hybrid renewable park producing electricity from wind and solar in Ida-Viru County, Luganuse parish, projected to be launched as early as next year. This is the first time such a hybrid solution for large-scale alternative energy production has been created in Estonia.

Estonia Wind-Solar Hybrid Power Generation System Plant

Power with purpose: Sunly's hybrid parks combining wind, solar ...

There was a massive boost for this effort this week when Sunly, an Estonian renewable energy producer raised 300 million euros in debt financing to accelerate the ...
