

Gambia power generation equipment container

Overview

Where can I buy a container in the Gambia?

Containers can be purchased from the Gambia Agency. Do take care to photocopy the watchman's ID card and make sure you know where he lives and that he is residing in The Gambia. Only employ a watchman who has been recommended to you.

How much electricity will Gambia generate in 2025?

The Gambia's Electricity Sector Roadmap (2019-2025) aims to scale up electricity generation to 200 MW of available capacity at peak in 2025, with 14MW expected from the OMVG project with Guinea and Senegal, and 50MW from the Souapiti project and the remainder through Independent Power Producers (IPP).

Why is electricity so expensive in The Gambia?

The average tariff for electricity in The Gambia is one of the highest in the world at \$0.23/kilowatt hour (kWh). This high cost is due to expensive imports of HFO for NAWEC's generators, leading to increased production and supply expenses.
