

Georgia energy storage lithium battery manufacturer

Overview

Based in Georgia, USA, the company produces nearly 15 gigawatt-hours of energy storage annually through its domestic manufacturing facilities. Stryten Energy develops and delivers solutions across multiple segments, including transportation, essential power, and motive power applications. Who owns HL-GA Battery Company?

Hyundai Motor Group and LG Energy Solution committed an investment of more than \$4.3 billion to establish HL-GA Battery Company. Our battery cell manufacturing joint venture is strategically located outside beautiful Savannah, Georgia and is scheduled to start production early 2026.

Where will Hyundai Motor Group build a lithium-ion EV battery plant?

Korea-based Hyundai Motor Group will work with LG Energy Solution (LGES) to build a \$4.3 billion facility in Bryan County, near Savannah, Georgia, near where Hyundai Motor Group Metaplant America is currently being built. When will lithium-ion battery production start?

Battery production at the joint venture plant is expected to begin at the end of 2025, with an annual production capacity of 30 gigawatt-hours (GWh) to support the production of 300,000 electric vehicles. Korea-based LG Energy Solution is the second largest supplier of lithium-ion batteries to the auto industry.

How many battery plants does lges have?

Including the new Hyundai joint venture, LGES has seven battery plants currently operating or being constructed in the U.S. In the Hyundai and LGES joint venture in Georgia, each company will hold a 50 percent stake in the cell production facility.

Does stryten energy own Largo?

In 2025, Stryten Energy formed Storion Energy, a joint venture with Largo, establishing a domestic supply chain for vanadium flow battery components. Each company maintains a 50% stake, with Stryten contributing \$7 million to support operations. At CES 2025, the company introduced “Reluctance,” an innovative mobile microgrid solution.

Where is GM Building a battery plant?

The company is building three battery plants in a partnership with GM, including one in Warren, Ohio, which has already opened; one in Spring Hill, Tennessee, which will open in 2024; and the third in Lansing, Michigan, which is scheduled to open in early 2025.
