

Ghana Power Station

LiFePO, Battery, safety

Wide temperature: -20~55°C

Modular design, easy to expand

The heating function is optional

Intelligent BMS

Cycle Life:≥6000

Warranty:10 years

Overview

How many power plants are there in Ghana?

There are currently approximately 25 power plants in Ghana with a combined installed capacity of about 5,615 MW. Historically, the Electricity Supply Industry (ESI) has been dominated by hydroelectricity from plants on the Volta, with The Volta River Authority ('VRA') owning over 80% of the total capacity.

What are the main sources of power in Ghana?

Overview of The Ghana Power Sector Ghana's power supply sources are from hydroelectricity, thermal fueled by crude oil, natural gas and diesel, solar and also imports from La Cote D'Ivoire. Ghana also exports power to Togo, Benin and Burkina Faso. Ongoing grid expansions would allow further exports to other neighboring countries in the sub region.
