

Good PV panel prices in Slovenia

Overview

Where do solar panels come from in Slovenia?

There are a few local suppliers and manufacturers of solar power equipment in Slovenia. However, most of the solar panels and components that are used for solar installations in the country are exported from global and online suppliers. There are several ports in Slovenia providing access to commercial, logistics, and trade activity.

How many solar PV systems are installed in Slovenia?

In 2019, there were 2,496 solar PV systems that were installed in Slovenia generating a total solar capacity of 31.2 MW. Majority of these PV systems were for residential installations. This was a huge increase from the previous year (2018) bringing an increase of up to 233%.

How much does electricity cost in Slovenia?

The average cost of electricity for household consumers in Slovenia is approximately \$0.2247 per kWh, while the cost excluding taxes is around \$0.1819 per kWh. 3 Slovenia boasts a generally reliable electricity grid with a robust transmission network that ensures uninterrupted and high-quality power delivery.
