

Haiti-specific solar photovoltaic panels

Overview

Can solar power be used in Haiti?

Global Green, Green Energy Solutions, and Top Power Haiti are some of the initiatives that have a goal to bring solar to areas of Haiti for sustainable energy usage. Already, their initiative has proved to be beneficial to a few projects and buildings in the country.

Why is distributed solar PV the only energy source in Haiti?

Since only about 13% of the people even have grid access, distributed solar pv is the only energy source that can supply all the people electricity for now. Haiti has limited energy resources: no petroleum or gas resources, small hydroelectricity potential and rapidly declining supplies of wood fuels.

What is the solar power plant capacity in Haiti?

The solar power plant in Haiti has a capacity of 1.2 MWp. It is located in the Commune of Jacmel, South-East Department, and is connected to the regional electricity network of Jacmel.
