

# Huawei Brunei Energy Storage Power Station Project

#### **Overview**

Will Brunei build a solar power plant in 2022?

Construction of the solar power plant is slated to start in 2022, with \$50,000 earmarked to conduct a land survey in Kg Sg Akar. Both the Bukit Panggal and Belingus solar farms will produce 15 MW of solar energy. Apart from the three new solar power plants, Brunei will expand its solar energy project in Seria from 1.2 MW to 4.2 MW.

Will Brunei generate 100 mw of solar energy by 2025?

Brunei has set a target of generating 100 MW of solar energy by 2025 as part of the government's initiative to slash greenhouse gas emissions by 20 percent over the next 10 years. With the vast majority of the country's electricity generated by gas-powered plants, Brunei has one of the highest annual carbon footprint per person in the region.

Can a solar farm be developed in Brunei?

The new solar farms may be developed through public-private partnerships as the ministry seeks to reduce the government's financial burden. Brunei has set a target of generating 100 MW of solar energy by 2025 as part of the government's initiative to slash greenhouse gas emissions by 20 percent over the next 10 years.

What's going on in Brunei?

The \$1.8 billion Brunei Fertilizer Industries plant is another large-scale project in the downstream sector that will start operations in the third quarter of this year. Set to become one of the largest fertiliser plants in Southeast Asia, the plant plans to export urea to the agriculture industry in the region.

Will Brunei expand petrochemical plant in next fiscal year?

The minister said the next fiscal year will be critical in the expansion of Hengyi Industries' petrochemical plant, which has been the major driver of Brunei's

economic growth last year.

What is the largest foreign direct investment project in Brunei?

Hengyi is the largest foreign direct investment project in Brunei, exporting 9.46 million metric tonnes of petrochemical products worth US\$4.08 billion since its oil refinery started operations in November 2019.
