

Huawei Energy Storage Inverter Application Mode

Overview

The system can be classified into the following three types based on application scenarios: Multiple working modes can be set, such as Maximum self-consumption, TOU (time-of-use), fully fed to the grid, and Third-party dispatch.

Huawei Energy Storage Inverter Application Mode

On-grid/Off-grid (PQ/VSG)

Enable: When the system switches from on-grid to off-grid mode, the microgrid adaptability of the inverter is automatically enabled. When the system switches from off-grid to on-grid mode, the ...
