

# Huawei Luxembourg Wind Power Energy Storage Project

#### **Overview**

Why should you choose Huawei for power plants?

In terms of operation and maintenance (O&M), Huawei provides full-link diagnosis capabilities to improve the safety and performance ratio (PR) of power plants. Furthermore, Huawei provides intelligent AC and DC safety protection for PV, ensuring personal and asset safety across various scenarios.

Will Huawei's Residential Solutions be a green future?

By the end of 2023, 3.3 million households around the world chosen Huawei's residential solutions to fulfil their green future. Carbon neutrality not only means technological transformation, but also extensive and profound social transformation.

Does Huawei use string inverter technology?

Since 2013, Huawei has chosen string inverter technology. In 2020, Huawei launched the industry's first string ESS, which uses controllable power electronics technologies to resolve the inconsistency and uncertainty of lithium batteries.

### **Huawei Luxembourg Wind Power Energy Storage Project**

### What is Huawei's energy storage project?

Huawei's energy storage project emerges as a viable solution to this complex problem, enabling a transition to renewable energy sources. For ...
