

Huawei s photovoltaic inverter is number one

Overview

[China-Shenzhen] Recently, Bloomberg New Energy Finance (BNEF) announced the Global Tier 1 Power Inverter Manufacturer and Global Tier 1 Energy Storage List 2Q 2025. Huawei Digital Power once again named on the two lists with its globally leading smart photovoltaic inverter, energy storage products and rich practical applications. Which Huawei solar inverter is the best?

Zero Carbon is the best place to look for a Huawei Solar Inverter Review. The SUN2000I range from Huawei includes single-phased inverters with a power size ranging between 2 – 5 kilowatts (also called hybrid inverters), which can be utilized with battery storage.

What is Huawei solar inverter battery?

The Huawei solar inverter battery has a storage power that can be elevated from 9.2-kWh to an optimum capacity of 19.2-kWh. This inverter is different from a central inverter as it doesn't require an additional combiner box.

How do Huawei solar inverters work?

Huawei inverters innovate and optimize solar energy throughout the entire power generation lifecycle. Huawei integrates cutting-edge digital, internet, and PV technology into their solar inverters. Embedding innovative technology intelligence into the inverters, it connects every object and process.

How much does a Huawei solar inverter cost?

Nonetheless, we were able to make an estimate and calculate an average for the main inverters people buy from Huawei Solar. In general, they range from about €1,200 for the SUN2000-5KTL to €3,000 for bigger models such as the SUN2000-30KTL. Remember that these prices are just an estimation, and they may greatly vary in the future.

Why should you buy a Huawei inverter?

HUAWEI inverters are durable, premium-quality technological marvels. High-quality engineering and optimum connectivity enable solar energy plants to work efficiently for many decades. Huawei products are constantly improved and subject to rapid technological advances. In our table you will find an overview of all inverters from Huawei.

Where are Huawei solar inverters made?

With more than 194,000 employees and operations in over 170 countries and regions, the company doesn't seem to stop and is actually achieving big milestones at a very high rate. Even though Huawei has establishments all over the world, the main manufacturing location for its solar inverters is still China.
