

Hungarian Energy Storage Power

Overview

The Hungarian government has allocated HUF 62 billion (EUR 158 million) for energy storage projects with an overall 440 MW in operating power. Hungarian authorities launched the tender for grid-scale batteries on January 15 and received offers until February 5. Will Hungary's new battery energy storage system help Green the grid?

The new facility supports a growing push to green Hungary's power grid. Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition.

How much does Hungarian government spend on energy storage projects?

The Hungarian government has allocated HUF 62 billion (EUR 158 million) for energy storage projects with an overall 440 MW in operating power. Hungarian authorities launched the tender for grid-scale batteries on January 15 and received offers until February 5. The winning bidders were selected a few days ago.

What is Hungary's energy storage goal?

The ministry said that Hungary has set its 2030 energy storage goal at 1 GW in the updated National Energy and Climate Plan. Home » News » Electricity » Hungary awards EUR 158 million for 440 MW of energy storage.

Where will Hungary's largest energy storage system be built?

With funds obtained through a previous program, transmission system operator MAVIR is already building the country's largest energy storage system – a 20 MW project in Szolnok, central Hungary, the ministry said. It added that several projects with even bigger capacity will be installed under the tender concluded a few days ago.

Why is EU funding 800MW of energy storage in Hungary?

The EU has approved a \$1.2bn state aid funding package for 800MW of energy storage in Hungary as the country seeks to up its renewables.

Does Hungary need a state aid energy storage scheme?

The national funding will support the installation of 800MW of large-scale electricity storage. Hungary seeks to increase storage capacity in order to offer greater grid flexibility. Credit: Dorothy Chiron via Shutterstock. The European Commission has approved a €1.1bn (\$1.2bn) state aid energy storage scheme from the Government of Hungary.
