

India s solar panels photovoltaic power generation

Overview

The installed photovoltaic capacity in was 4257 MW as of 30 September 2022. The state is planning to add 10,050 MW solar power capacity to provide power supply to the farming sector during the day time. The state has also offered five Ultra Mega Solar Power Projects with a total capacity of 12,200 MW to developers under renewable power export policy outside the state. An.
