

Inverter DC 48V to AC 220V system 5kw

Overview

What is a vevor DC AC output inverter?

This VEVOR DC AC output inverter features a high-quality 5000VA 48VDC battery. It has a 230VAC output design, and it is compliant with power standards. Its LCD programming supports 50Hz and 60Hz loads. It also supports solar, electricity, generators, and external batteries. This machine is a 4000-watt car inverter.

How safe is a DC AC output inverter?

This DC AC output inverter features protection against fire and equipment damage. Its ground fault feature protects against electric shocks and fire hazards. These safety features make it reliable and safe. It is perfect for residential and commercial solar power systems. This pure sine wave inverter is perfect for you if you live off the grid.

What is a 230V solar inverter?

This is a multifunctional 230V off grid solar inverter, integrated with a MPPT solar charge controller, a high frequency pure sine wave inverter and a UPS function module in one machine, which is perfect for off grid backup power and self-consumption applications. This Hybrid inverter can work with 48V battery or without batteries.

What is the default wattage of vevor solar inverter?

The factory default of the machine is 50 Hertz. You can set it to 60Hertz according to your needs. VEVOR solar inverter with 5000VA pure sine wave, MPPT function, smart battery charging, and multiple protections for efficient off-grid power in home or office.

What is a 220 volt solar inverter?

This single-phase 220V solar inverter is an international version Which can be used in 220Vac single phase systems and as well as in 120V/240V split phase

systems. This inverter charge can be connected to a separate 240V to 120/240 Volt split phase transformer (doesn't included) to get two separate 120V hot lines for 120V loads.

What is 5000W pure sine wave inverter?

5000W Pure Sine Wave Inverter DC 48V to 220V AC (Single phase/A Hot Leg), built in 100A Mppt Solar Controlle. It is a new All-in-one hybrid Solar Inverter, Max.PV Power□6000W, Max.PV Input Current: 18A, Max.PV Input VOC: 450V DC, PV Wire:10-12AWG, Max PV Charging Current: 100A (mppt controller to battery)
