

Inverter prices in Australia

Overview

Where can I buy solar inverters in Australia?

At Sparky Direct, we provide high-quality solar inverters at competitive prices. Shop with confidence at Australia's leading online electrical wholesaler, supported by exceptional customer service and fast delivery. Switch to solar power confidently and move towards a sustainable future with our reliable solar inverters.

How much does an inverter cost in Australia?

- String Inverters: Typically, string inverters cost between AUD 800 and AUD 3,000, depending on their capacity and brand.
- Microinverters: These usually range from AUD 200 to AUD 350 per inverter. For a typical home installation with 10 to 20 panels, the total cost can be quite high compared to using a string inverter.

How much does a solar inverter cost?

Solar inverters vary quite a bit in price. Micro inverters can start as low as \$195 apiece. String inverters can vary from \$500 to around \$5,000. Meanwhile, hybrid inverters are anywhere from \$600 to around \$4,000. When choosing a system, you'll often have a budget or premium option.

What is a solar inverter?

A solar inverter is an essential component of any solar power system, converting the direct current (DC) generated by solar panels into alternating current (AC) usable in your home or fed into the electrical grid.

Should you buy a solar inverter?

This means they can store surplus solar energy in home batteries for later use, and if necessary, supply power back to the grid. With solar inverters, good after-sales support and solid warranties are essential. Here's what to look for: Warranty Length: Expect 5 to 15 years as standard.

Who is the biggest solar inverter manufacturer in the world?

In addition to being well-known in the smartphone sector, Huawei is also well-known in the solar sector. It is one of the biggest inverter manufacturers and has invested heavily in solar technology research and development. Solar Edge is the third-largest inverter producer in the world.
