

Ireland invests in energy storage power station project

Overview

Dublin, Ireland – ESB has today opened a major battery plant at its Poolbeg site in Dublin which will add 75MW (150MWh) of fast-acting energy storage to help provide grid stability and deliver more renewables on Ireland's electricity system.

Ireland invests in energy storage power station project

Supporting Ireland's energy transition with battery energy storage

Wind and solar energy play a key role in Ireland's transition from fossil-fuel-based electricity generation. But these precious resources will need to be stored for times when the ...
