

# Ivory Coast 12v 4000w inverter

## Applications

Electric motorcycle

Electric Forklift

Electric Boat

Golf Cart

RV

Audio Equipment

Solar Street Light

Household Energy Storage

Energy Storage System

## Overview

---

What is a 4000 watt inverter?

□High efficiency Stable Performance □This 4000 watt inverter has an efficiency upto 91% and its pure sine wave inverter's THD is less than 3%, which makes it has more stable performance and works smoothly even better than grid power, suitable for appliances under 4000 watt.

How to install a 4000W 12V inverter?

For the 4000W 12V inverter, we suggest you to install it with 400Ah or higher battery at least to power the loads. Small battery will cause low voltage protection when you are using a high power appliance. Connect the inverter to a 12V battery with the standard cables provided with inverter. Strongly recommend thicker and shorter battery cables.

What is a pure sine wave 4000W power inverter?

Just wanted to share my experience with the Power Inverter Pure Sine Wave 4000W from GIANDEL. This inverter is a beast when it comes to providing uninterrupted power supply on the go. The push mount remote with LCD display makes it super easy to control and monitor the input voltage, output power and protection modes.

Why should you buy a Sunwave 4000 watt pure sine wave power inverter?

As an avid traveler and RV enthusiast, having a reliable power source on the road is crucial. That's why I invested in the SUNWHEEL 4000 Watt Pure Sine Wave Power Inverter and boy am I glad I did. Its durable aluminum housing protects it from any bumps or drops while the built-in cooling fan keeps it running safely and quietly at all times.

How much power does an inverter need?

It mainly depends on the total power of the device you want to use with the help of the inverter. If a 1450W coffee machine is connected, the minimum

power of the inverter must be 1500W. It is necessary to consider starting the peak, for example, the power of the refrigerator is 3-5 times higher than its rated power in order to operate.

What are the features of a 4000-watt inverter charger?

Low frequency, low Idle Current, BTS cable, remote control. ★ This 4000-watt inverter charger requires 120VAC input and can provide 120VAC output power for the appliances, and it can output 50 or 60Hz via the SW4. ★ AC/Battery Priority: Our inverter is designed with AC priority by default, you can choose the battery priority by SW5 switch.

Efficient  
Higher Revenue

Intelligent  
Simple O&M

Flexible  
Abundant Configuration

- Max. Efficiency 97.5%
- Max. PV Input Voltage 150V
- 100% Peak Output Power
- 2 MPPT Trackers, 100% DC Input Utilization
- Max. PV Input Current 16A, Compatible with High-Power Modules
- IP65 Protection Degree: support outdoor installation
- Smart 11V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection
- Plug & Play, EPT Switching under 10ms
- Compatible with Lead acid and Lithium Batteries
- Max. 6 units in parallel
- AGC Function (Optional): when an arc fault is detected the inverter immediately stops operation
