

# Kazakhstan energy storage photovoltaic companies

#### **Overview**

How many solar power plants are there in Kazakhstan?

We operate two solar power plants in Kazakhstan, in the Zhambyl and Kyzylorda regions, with a total capacity of 128 MW. We are also developing the Mirny project, an onshore wind farm with a capacity of 1 GW, whose 160 wind turbines will be combined with a 600 MWh battery energy storage system.

What is Kazakhstan's largest solar project?

Kazakhstan's largest solar project – a 100 MW field in Saran, Karaganda Province – was opened last year by a German company, also with EBRD backing. Russian engineers doubled capacity at the EBRD-backed Burnoye plant in Zhambyl in 2018.

Who collects energy statistics in Kazakhstan?

Official energy statistics in Kazakhstan are the responsibility of the Committee on Statistics under the Ministry of National Economy. In 2016, the energy data collection system was modified as part of modernisation efforts by the Committee on Statistics.

What do we do in Kazakhstan?

In Kazakhstan, we are mainly active in oil and gas production. We lead several community outreach initiatives in the country. We operate two solar power plants in Kazakhstan, in the Zhambyl and Kyzylorda regions, with a total capacity of 128 MW.
