

# Large-capacity home energy storage

### **Overview**

This article provides information on home battery and backup systems, including air-cooled generators, wet cell batteries, AGM batteries, solar panels and their compatibility with different types of energy storage systems. The article also includes a list of top choices for whole-home battery backup systems.

A home battery and backup system is a great way to provide clean, ecofriendly energy to your entire home throughout the year. If you have a power outage, consider installing a set of backup batteries or solar panels for electricity when off the grid.

The standard Generac PWRcell system provides 9kWh of storage capacity from three Lithium Ion battery modules rated at 3.0kWh with modular.

The market leader in battery backup systems with 13.5kWh capacity, 10-year warranty and an intuitive companion app for monitoring energy distribution and use. You can connect up.
