

# Liquid Cooling Energy Storage Outdoor Cabinet Price

## Overview

---

What is C&I outdoor lithium battery storage cabinet system?

It integrates 215kWh LiFePO<sub>4</sub> batteries with BMS, high-voltage box, power distribution system, PCS (Power Conversion System), control system, fire protection system, temperature control system, and EMS (Energy Management system) monitoring system. C&I Outdoor Lithium Battery Storage Cabinet System.

What is cx-ci002 outdoor battery storage cabinet?

CX-CI002 Outdoor C&I Battery Storage Cabinet 105KW/215KWh comes with advanced liquid-cooling technology, safe and reliable. Supports OEM/ODM & factory prices.

What is a commercial & industrial battery storage cabinet?

Commercial & Industrial Battery Storage Cabinet have a wide range of applications across various sectors, including the energy grid, industry, residential, and transportation. These applications help enhance grid stability, improve energy efficiency, support renewable energy integration, and provide backup power.

Why should you choose C&I lithium battery storage cabinets?

Our C&I lithium battery storage cabinets have helped many customers optimize energy management, reduce costs and improve operational efficiency. Through these successful cases, you will learn how we provide customized energy storage solutions for different companies to promote sustainable development and power stability.

What is a liquid cooling system?

The integrated frequency conversion liquid cooling system helps limit the temperature difference among cells within 3 °C, which also contributes to its long service life. It has a nominal capacity of 372.7 kWh with a floor space of

just 1.69 square meters. The system is suitable for inverters with operating voltages ranging from 600 to 1500 volts.

What are the benefits of ESS with outdoor cabinet design?

Highly integrated ESS with outdoors cabinet design provides high protection class  
Advanced integration technology ensures optimal system performance with lower cost  
SAFE AND RELABLE DC electric circuit safety management includes fast-breaking and anti-arc protection  
Multi-state monitoring and linkage actions ensure battery system safety
