

Lithium iron phosphate battery pack industry standard

Overview

Lithium iron phosphate (LiFePO4) battery packs feature a nominal cell voltage of about 3.2V, long cycle life (2,000 to over 10,000 cycles), high thermal and chemical stability, and a wide operating temperature range (-20°C to 60°C).

Lithium iron phosphate battery pack industry standard

REGO

Free shipping! As the industry's first slimline solid-state LiFePO4 battery, it packs powerful performance into an ultra-thin 2.4-inch design, perfect for tight spaces in 4WD, truck campers, ...

WhatsApp Chat

How Do Lithium Iron Phosphate Battery Packs Work and What ...

LiFePO4 battery packs provide superior safety with minimal risk of thermal runaway, long lifespan, excellent high-temperature performance, and fast charging capability. They are lightweight, ...
