

Mali energy storage power station industrial park

Overview

What is the energy access problem in Mali?

Mali faces a critical energy access challenge. The national power access rate was 50% in 2019 (compared to 36.11% in 2015). The problem is particularly acute in rural areas with 21.12% access rate in 2019 (compared to 15.75% in 2015).

What is the power access rate in Mali?

The national power access rate was 50% in 2019 (compared to 36.11% in 2015). The problem is particularly acute in rural areas with 21.12% access rate in 2019 (compared to 15.75% in 2015). Power generation is limited (Annex A.17), forcing Energie du Mali (EDM, the power utility) to have recourse to frequent load shedding.

Why is energy du Mali struggling with load shedding?

Power generation is limited (Annex A.17), forcing Energie du Mali (EDM, the power utility) to have recourse to frequent load shedding. EDM's difficulties stem from the discrepancy between the average price (CFAF96 per KWh) and the power production cost (CFAF130 per kWh) in 2019.

How much money does Mali get to build Sikasso solar PV plant?

"Mali receives US \$52m loan to build Sikasso solar PV plant". Construction Review Online. Nairobi, Kenya. Retrieved 13 May 2024.

Mali energy storage power station industrial park

<u>The Power Plant</u>, <u>Albatros Energy Mali</u> <u>S.A</u>

This project adds 25% to Mali's current base power and generates enough electricity to power approximately 780,000 households. AEM has around ten employees in Bamako and around ...
