

Malta photovoltaic sun room inverter

Overview

Why should you choose SunPower solar panels in Malta?

SunPower solar panels in Malta are the best in Malta and the world. They can help you reduce your electricity bills and carbon footprint while providing a sustainable lifestyle for years to come.

Which solar inverter should you choose?

We opt for Huasun solar panels and Sungrow inverters. Both companies are renowned worldwide as the leading manufacturers of products for electricity generation from solar energy. We have found that the combination of Huasun and Sungrow products provides one of the most power-efficient systems available.

What can I do with a photovoltaic panel?

At Alternative Technologies Ltd., we specialize in photovoltaic panels for residential and commercial installations. These panels can be used for generating electricity from sunlight. We also offer solar water heaters, inverters, and storage systems to help manage your energy production.

Are photovoltaic panels a good investment?

Photovoltaic panels offer a high return on investment (ROI), as they generate electricity, reduce your energy bills and increase the value of your property. Low maintenance - Photovoltaic panels require very little maintenance, making them a convenient and hassle-free energy solution.

Which inverters are compatible with battery storage?

We are local partners for Huawei and SolarEdge, both of which provide string type hybrid inverters which are fully compatible with battery storage and offer live monitoring via their respective apps on all platforms allowing full visibility of your system's performance wherever you are in the world.

What are the different types of PV mounting systems?

Other types of PV mounting systems which we can offer in include special clamps for sandwich panels and industrial roofs, façade mounting for building integrated PV, solar carports, agri-voltaic structures and other types ground-mounted structures, as well as floating structures.
