

Mexico Smart Grid Energy Storage Project

Overview

This transformation involves balancing state oversight with private investment to modernize the grid, integrate Battery Energy Storage Systems (BESS), also known as Sistemas de Almacenamiento de Energía Eléctrica (SAE), and deploy 27 gigawatts (GW) of renewables over the next five years.

Mexico Smart Grid Energy Storage Project

GRID MODERNIZATION BASELINE REPORT OF NEW ...

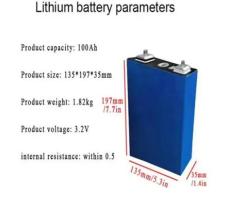

In 2007, New Mexico enacted the New Mexico Renewable Energy Transmission Authority Act.44 The Act established the Renewable Energy Transmission Authority (RETA), and authorized it ...
