

Mixed energy cost price of communication base stations in Uganda

Overview

Due to the widespread installation of Base Stations, the power consumption of cellular communication is increasing rapidly (BSs). Power consumption rises as traffic does, however this scenario varies from ge.

Mixed energy cost price of communication base stations in Uganda

Research on decentralized resource operation optimization of ...

Abstract The extensive construction and promotion of 5G base stations (5GBSs) have led to a surge in communication energy consumption, as 5G energy consumption is ...
