

# **Nepal Energy Storage Power Station**

### **Overview**

As of 4 March 2025, Nepal's total installed electricity capacity is 3421.956 megawatts (MW). This includes 3255.806 MW from hydropower, 106.74 MW from solar, 53.41 MW from thermal, and 6 MW from Co-generation. The following is a list of the power stations in Nepal.

• Solar power stations • 10 other small hydropower stations (total: 2.460) • 29 small isolated hydropower stations (total: 5.676 MW) .

• • • • •

This pioneering project is set to transform industrial energy use by replacing polluting diesel generators with a large-scale battery storage system powered by solar energy.
