

New Zealand Energy Storage

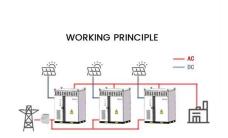

Overview

The NZ Battery Project was set up in 2020 to explore possible renewable energy storage solutions for when our hydro lakes run low for long periods. A pumped hydro scheme at Lake Onslow was one of the options being explored.

New Zealand Energy Storage

Genesis Energy Chooses Saft for Major Battery Project

Saft partners with Genesis Energy to revolutionize New Zealand's energy landscape, launching a powerful 100-MW battery storage project at Huntly Power Station by ...
