

New generation flow battery

LiFePO₄

Wide temp: -20℃ to 55℃

Easy to expand

Floor mount&wall mount

Intelligent BMS

Cycle Life:≥6000

Warranty:10 years

Overview

Researchers at PNNL developed a cheap and effective new flow battery that uses a simple sugar derivative called β -cyclodextrin (pink) to speed up the chemical reaction that converts energy stored in chemical bonds (purple to orange), releasing energy (electrons) to power an external circuit.
