

# **Niue Power Energy Storage System Solution**

## Overview

---

Niue's solution combines three innovative approaches: 1. Climate-Adaptive Solar Design Specialized coatings prevent salt corrosion (3x standard durability) while maintaining 98.6% light transmission efficiency even in humid conditions. 2. Smart Energy Distribution 3. Community-Centric Implementation How did New Zealand support Niue's battery energy storage system?

In addition to Australia's support, the New Zealand Government contributed \$2.5 million to relocate and restore Niue's Battery Energy Storage System (BESS). This funding has allowed the Ministry to repair the grid control system, procure necessary fuel tanks, and install cabling and connections.

What is Niu energy?

NIU's developed a 4th generation NIU Energy™ lithium battery technology that has a longer lasting battery life, longer range, and more lightweight that is safer and more powerful. NIU has maintained a fast pace of growth and has sold an accumulation of over 1 million smart electric two wheeler vehicles worldwide.

What does the Minister of infrastructure say about Niue's New Power Station?

The Minister of Infrastructure, Hon. Crossley Tatui extended his appreciation to the Australian and New Zealand Governments, saying, "The construction of this new power station is a vital piece of infrastructure for Niue's development and well-being. This achievement would not have been possible without the support of our regional partners."

When is Niue's New Power Station launching?

The Ministry of Infrastructure celebrated the so5 launch of Niue's New Power Sta;on on the 7th November 2024. The launch marks a cri;cal milestone in Niue's journey to strengthen and modernize its energy infrastructure.
