

Niue power generation container

 **TAX FREE**    

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

ENERGY STORAGE SYSTEM

Overview

What percentage of energy is produced in Niue?

21% and LPG for the remaining 2%. For energy produced in Niue, biomass currently meets 68% of the total energy produced with solar PV at 30% and solar water.

What does energy security mean for Niue?

As one team in its implementation, Energy security for Niue encompasses everyone's access to modern, reliable and safe energy services. It includes energy generation, distribution and consumption becoming more cost-efficient and affordable, and the energy infrastructure in Niue becoming climate-proof.

What are the energy losses of Niue Power System?

13.5.1 Electricity supply losses A study of the Niue power system energy losses conducted by KEMA in 2012 quantified the losses into two categories: station losses, which were categorised as efficiency of generating units and power plant auxiliary loads and distribution station losses.

Why is the work being done at Niue Power House important?

"The work being done is crucial for ensuring that Niue has sustainable and efficient energy for years to come." Niue looks forward to welcoming technicians in the coming weeks to assist with the commissioning of the generators in the new power house as the nation moves towards a more sustainable and resilient future.

How many diesel generators does Niue have?

Current description Niue currently has excess diesel generating capacity: four diesel generator engines with a total installed capacity of 2084 kW. However, only two of these, with a capacity of 1026 kW (49%) are being regularly used, while the others are not.

What is Niue Power Corporation (NPC) funding?

This represents the culmination of years of work from Niue Power Corporation (NPC) staff, local and overseas contractors, and our development partners. Australia and New Zealand funding assistance in particular has been instrumental in the procurement of new generators, transformers, switchboard and construction of a new building to house these.
