

North Macedonia processes lithium battery packs

Overview

Here are some key points:

- Cost: Lithium-ion batteries for storage are averaging €450–€600 per kWh¹.
- Investments: The country is attracting investments in battery factories, with projects worth up to EUR 360 million underway².
- Hybrid Solutions: There are initiatives combining lithium-ion batteries with other technologies for effective energy storage³.
- Energy Storage Projects: The North Macedonia Energy Storage Container Project is a significant development aimed at enhancing renewable energy integration⁴.
- Local Production: A new factory for lithium-ion battery systems is being established, with an investment of €65 million⁵. [pdf]
