

Off-grid 10kw industrial frequency inverter price

Overview

What is a 10kW off grid no battery inverter?

10kW off grid no battery inverter for solar power system, with strong load capacity, good transient response, 230V/ 240V/ 400V AC stable output voltage, pure sine wave full power output, low waveform distortion. Features Two kinds of start modes: Step-down voltage start and variable frequency start.

What is a hybrid inverter?

Both solar inverter and hybrid inverter are widely used in PV solar energy into electric energy. Hybrid inverter contains the function of a solar inverter, also adds a built-in solar charge controller. Also it can be a combination of off grid and grid tie inverter in one machine with same description as you called hybrid inverter.

What types of inverters do xindun produce?

A: We produce various types of inverters: pure sine wave inverters, off-grid inverters, on/off grid inverters, solar hybrid inverters, single phase inverters, 3 phase inverters, low frequency inverters, high frequency inverters, etc. Don't know which type of inverter to choose?
