

# Olan Power Energy Storage Project in Algeria

#### **Overview**

How many MW does Algeria's new power plant generate?

Both plants, being developed by Algeria's state-owned Sonelgaz, will each generate 1,340 MW. Both projects are expected to start operations in 2025 and are expected to enhance Algeria's power generation infrastructure while supporting energy security and fuelling the country's economic growth.

Which power plants are being built in Algeria?

Combined Cycle Power Plants: Biskra and Bellara Algeria's electricity generation capacity is set to grow with the construction of two major combined cycle power plants: Biskra and Bellara. Both plants, being developed by Algeria's state-owned Sonelgaz, will each generate 1,340 MW.

How will natural gas boost Algeria's energy exports to Europe?

These developments – spanning natural gas, electricity and renewable energy – will enhance Algeria's energy exports to Europe and expand its domestic capacity. Hassi R'Mel Gas Boosting Project The Hassi R'Mel gas field, one of the largest in the world, is central to a \$2.3 billion project designed to optimize gas flow efficiency to Europe.

How much is Algeria investing in oil & gas?

In fact, the Algerian government is investing \$50 billion in oil and gas projects through 2027, targeting increased production from flagship assets as well as bringing new output online.

How many solar power plants are there in Algeria?

Approximately 60 solar power plants are planned to be constructed in Algeria within the next ten years. Algeria is also part of the Desertec Industrial Initiative, which intends to use Sahara solar and wind power to provide 15 per cent of Europe's electricity needs by 2050.

How will astroenergy n-type solar modules support Algeria's high-level expansion strategy?

To support these developments, the consortium has supplied Astroenergy ntype TOPCon solar modules, integrating advanced technology into Algeria's high-level expansion strategy. In March 2024, Turkish firm Özgün Ínşaat launched construction of the Hassi Delaa Solar Power Plant in Laghouat.
