

Pakistan Telecom starts building 5G base stations

Overview

What is Pakistan's 5G vision?

This vision isn't just about speed; it's about empowering every Pakistani with opportunities, equality, and access to a brighter digital future. Pakistan is set to revolutionize its digital landscape with 5G in 2025. Ambitious plans include faster broadband, expanded fiber optics, and bridging the digital divide.

When will 5G spectrum auction be held in Pakistan?

5G Spectrum Auction: Scheduled for April 2025, positioning Pakistan among global telecom leaders. A critical aspect of these advancements is the National Fiberization Plan, which aims to expand Pakistan's fiber footprint from 200,000 kilometers to 500,000 kilometers.

What are the new broadband plans in Pakistan?

At the National Broadband Network Forum 2024, hosted by the Pakistan Telecommunication Authority (PTA) in partnership with Huawei, Director General Licensing Amer Shahzad unveiled transformative plans: Broadband Speed: Increase average internet speed from the current 15 Mbps to 50-100 Mbps.

Does Pakistan have a good internet connection?

Pakistan's international connectivity is also robust, supported by seven submarine cables, the Pak-China Optical Fiber Cable, and 21 cross-border terrestrial links, providing a total capacity of 16.4 Tbps. However, challenges such as limited FTTS coverage and low broadband speeds persist.
