

Papua New Guinea Home Solar Power System

Overview

Who is solar energy Papua New Guinea?

We are Papua New Guinea's leading solar energy company, providing high quality solar services for your home or business through renewable energy.
WHY USE SOLAR?

Despite huge popularity in the rest of the world solar power has yet to take off in PNG.

Can solar PV reduce the cost of power supply in Papua New Guinea?

Application and implementation procedures. Solar PV has the potential to reduce the cost of power supply in Papua New Guinea and reduce carbon emissions. By issuing this Notice, PNG Power intends to start allowing solar PV systems to connect to its grids through a customer's regular electricity connection, but only under certain.

Does Papua New Guinea power offer rooftop solar PV systems?

2.1.1 Within its service area, Papua New Guinea Power Limited ('PNG Power') will allow and facilitate the connection and operation of Rooftop Solar PV Systems to its distribution networks, subject to the terms of this Notice.

Is solar technology getting cheaper in PNG?

Solar technology is getting cheaper and PNG has abundant sunshine. What is needed is the institutional, financial and technical ecosystem to make decentralised solar work at increased scale.

Is New Guinea facing an electricity access crisis?

BY Martin Davies and Christian Lohberger PAPUA New Guinea is facing an electricity access crisis. Only 14 per cent of its population has access to the grid, and even those connected experience unreliable and costly power.

Who supports IFC's work in Papua New Guinea?

IFC's work in Papua New Guinea is supported by the Papua New Guinea Partnership. Australia, New Zealand and IFC are working together through the Partnership to stimulate private sector investment and reduce poverty in Papua New Guinea. Economic Consulting Associates provided consulting support for this initiative.
